

Specification Sheet

BoneDry™ AXD

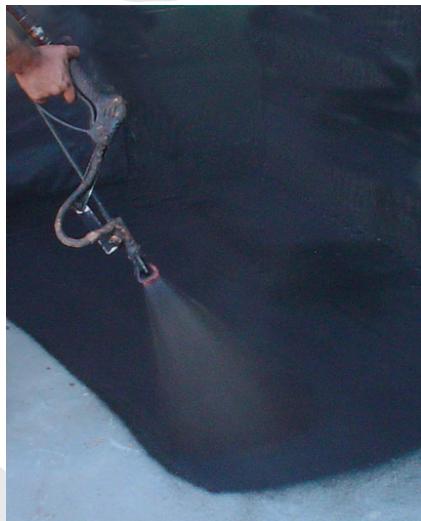

2034-C Van Buren Ave. • Indian Trail, NC 28079 • Phone: 704.334.8222

Description:

BoneDry™ AXD is an electrolyte-based accelerator that is used in a co-spray system to give an instant cure to the **BoneDry™** spray grade series of products. The AXD is ready to use with no prior dilution required. The AXD gives the applicator the flexibility to apply multiple membrane layers in the same trip with out waiting for curing.

Applications:

BoneDry™ AXD is applied through a unique two-spray system called co-spraying. A special dual tip spray gun is used to allow AXD to be sprayed in conjunction with the liquid membrane.
